

MANUFUTURE
Manufuture Technology Platform

THEMATIC PRIORITY

Manufacturing Industries, Manufacturing Technologies

PROJECT FUNDING

No project funding

DESCRIPTION

The mission of the European Technology Platform *Manufuture* is to propose, develop and implement a strategy based on Research and Innovation, capable of speeding up the rate of industrial transformation to high-added-value products, processes and services, securing high-skills employment and winning a major share of world Manufacturing output in the future knowledge-driven economy.

The main aims:

- Competitiveness in manufacturing industries,
- Leadership in manufacturing technologies,
- Eco-efficient products and manufacturing,
- Leadership in products and processes,
- Cooperation with related ETP's

ACTIVITY SUMMARY (November 2013 – May 2014)

Project funding:

No project funding

Meetings & Conferences:

7th Workshop of the MANUFUTURE AET community and UNIFARM User Forum, **8th November 2013, Hannover, Germany.**

Industrial Technologies Conference 2014, **9th - 11th April 2014, Athens, Greece.**

Deliverable, studies, results:

Manufuture Strategic Research Agenda, September 2006.

Manufuture 2013 Vilnius Declaration – formulated by participants of the MANUFUTURE 2013 Conference, 8th October 2013, Vilnius, Lithuania.
