

<p>ETP SMR European Technology Platform on Sustainable Mineral Resources</p>
<p>THEMATIC PRIORITY Mineral Resources, Raw Materials, Mineral Industry</p>
<p>PROJECT FUNDING No project funding</p>
<p>DESCRIPTION</p> <p>ETP SMR aims are modernising and reshaping the European Minerals Industries, include oil, gas, coal, metal ores, industrial minerals, ornamental stones, aggregates, smelters as well as technology suppliers and engineering companies. Through integrating all stakeholders across the raw-material supply chain a critical mass will be established to implement successful R&D with cross-sectoral application potential.</p> <p>Main Aims:</p> <ul style="list-style-type: none"> Securing the future supply of/access to European raw materials, Supporting the revival of exploration of Europe's mineral potential, Developing innovative and sustainable production technologies, Reuse, recovery and recycling as well as new product applications, Creating European added value through RTD-based technology leadership, education and training. <p>Network is supported/financed by members (no external funding).</p>
<p>ACTIVITY SUMMARY (November 2013 – May 2014)</p> <p><u>Project funding:</u> No project funding available</p> <p><u>Deliverable, studies, results:</u> Revised Strategic Research Agenda (Strategic Innovation and Technology Roadmap), July 2013</p> <p><u>Meetings & Conferences:</u> Annual conference is planned for December 2013, Brussels, Belgium.</p> <p><u>Activities of the network:</u></p> <ul style="list-style-type: none"> Modernise and reshape the European extracting and processing sector of energy and non-energy minerals by: <ul style="list-style-type: none"> Supporting stakeholders and members of the network in project application Involvement in research activities Partner search
<p>START & END DATES 2005/ongoing</p>
